Control Tips

- When the skater bails, tap the Nintendo GameCube™ Controller buttons repeatedly to get up faster.
- Special tricks have high point values. Expand your special tricks by finding all of your collectables.

Scoring Tips

- Combine grab and flip tricks while catching air for higher scores.
- You can continue your combo moves using Reverts, Manuals and Spine Transfers. Manuals will keep your combo going across the ground. Reverts and Spine Transfers will keep your combo going from big air tricks off of ramps.
- During a combo (unless in Free Skate Mode), every time you repeat a trick, that trick's point value will decrease. To get a high score, you're going to have to think about your "line" and mix up the tricks that you perform.
- Try to trick into and out of every grind.
- Use special tricks for huge scores.
- Spinning while in the air performing tricks will net bigger scores. Press **L** and **R** Buttons to spin around faster.
- Every trick in a combo adds to your score multiplier.
- Trick across gaps (the blue text transfers) to maximize your combos.

- You can combo every type of trick—lip tricks, manuals, vert tricks, grinds, etc. and use Revert to link them all together. Try spine transfers...you can link those in your combos too!
- If you fall or lose your balance during a combo and it turns red, you will not receive points for that combo.

The Special Meter and Special Tricks

As you score points in *Disney's Extreme Skate Adventure*, your Special Meter (the meter in the top left of the screen) will fill up. When the meter is glowing yellow, you will be able to perform special tricks that you normally cannot perform. The Special Meter increases as you perform tricks, so you will be able to bust some special tricks in the middle of your first combo.

Special tricks are performed using multiple direction presses on the +Control Pad with the corresponding face button. Try playing through Adventure Mode to earn your special tricks.

Camera Control

You can use the C Stick to move the camera and check out what's around you when you're skating. Let go of the C Stick when you're finished and the camera will return to its default position.

The Skate Stage

To make a menu selection, use the +Control Pad to move the cursor to your selection. Press the **A** Button to confirm your highlighted selection.

If you want to play a single player game, select either Play Game or Free Skate from the menu. For a two player game, select 2 Player. Kid Characters

Select an empty slot to create a skater and use \uparrow/\downarrow on the +Control Pad to select a boy or girl. Next you'll go to the Edit Kid menu. Use \uparrow/\downarrow on the +Control Pad to scroll through items to customize. You can choose the skater's name, appearance, outfit and equipment. Select a Level

Once you've selected a character, you can choose from the levels open to that character. Each character starts the game with only one level open to play. If you're playing as movie characters, unlock the remaining movie levels for that character by scoring points and completing goals. Each movie character can only skate in their own movie levels. If you're playing as a kid character, you'll have to begin the game in Olliewood, the real world level.

While skating in Olliewood, find the magic portals to hop from the real world into the movie worlds. Kid characters can skate in all three movie worlds by entering through the magic portals in Olliewood.

Play Game

Select Play Game to start playing the game. Once you're playing, press **START** to bring up the Pause menu where you can view the level goals, change the level that you're playing, save your game and go to the Options menu.

The Worlds

Disney/Pixar's Toy Story 2

The Toy Story 2 world is a place where, once people leave, the toys come out to play. There's plenty of excitement and fun as the toys take off on skate adventures when their owner, Andy, is away. There's a variety of levels to entertain you and lots of familiar toy friends to help you as you play.

Disney's The Lion King

Pride Rock is the legendary center of life on the savannah. Lions sun themselves while overseeing their domain. There are miles of grass and trees with watering holes to quench summer thirst. The Pride Rock area is bordered by natural barriers: the northwest is blocked by a ravine, the northeast is blocked by impassable jungle and the south is blocked by stone cliffs.

Disney's Tarzan™

Under the jungle canopy, life and adventure abounds. The jungle is home to countless animals and plants, with a few humans here and there. Sunlight filters down through the leaves above. Birds call to each other with animals rustling through the tangle below.

Olliewood

Olliewood, the real world level, is where you can skate as your own personal Create-A-Skater kid. You can also grind as one of the Extreme Skate Crew members. Olliewood is just like towns all over. There are places to eat, places to shop and places to play. As you explore Olliewood, find the magic portals that will transport your skater into the movie worlds.

The Levels

When you start playing, there will be only one level available in each of the worlds and two skaters available for each world. Open up new levels and get more skaters to play by successfully completing each level's goals.

Disney/Pixar's Toy Story 2

Andy's Room

Andy's toy-filled bedroom is a great place to skate. Use the racecar track to get onto the desk and then skate into the bathroom, where you can catch big air. Where in the WORLD could Wheezy's squeaker be? Take a trip around the globe and help him find it or help some of The Green Army Men get out of Andy's trunk.

Try grinding the toy box edges and the ramps on its ends. Track sections are great for a ramp or a grind. Lined up dominoes and boxes make grind lines and a pile of books work as a funbox. In the bathroom, the sink, tub, toilet and towel racks act as bowls, halfpipes and grind rails.

Pizza Planet

Pizza Planet is closed after a busy day. There's trash everywhere, creating a cardboard obstacle course. The arcade games are off for now, but you should do something about that. Help the Aliens turn on the "all-powerful claw" or find their way to their frozen sleep chambers.

The Pizza Planet has sci-fi styling with strange curves on the walls that make quarterpipes. The Mission Control Tower forms a set of cylindrical quarterpipes. Pizza take-out boxes can be used as ramps. The twisting power cords in the arcade are great for grinding. You may even be able to get up onto some of the tables.

Zurg's World, Xrghthung!

The caves and craters of Zurg's distant planet, Xrghthung, help Zurg hide in his high tech evil fortress. Skate around on the moon-like surface, tricking off craters and riding the walls of the canyons. Find your way into Zurg's fortress, but watch out for his automated defense system. Use transporters to get around once you're inside his fortress and make your way to the Spacecraft Sector. Skitch behind a UFO as it takes off and get amazing air and distance.

The landscape of Xrghthung provides craters of many sizes as pools and quarterpipes. You can grind on the sharp rock ridges and strange crystal extrusions, as well as the metallic pipes in the ground. Inside Zurg's fortress are metal beams and mesh floors for ramps and grind surfaces.

Disney's Tarzan™

Jungle Tree House

There are many wondrous places in the jungle for a young boy to explore. Yet, when he looks back on his childhood, the place Tarzan remembers the most is an incredible tree house he discovered with his friends Terk and Tantor. They found all sorts of weird things there that they'd never seen in the jungle before. It would be many years before Tarzan would learn that these things were all part of the human world—a world he once belonged to and would soon discover again.

Now you can skate as Tarzan or one of his friends in this leafy green world. Explore all the way up to the top of the tree house or skate around on the jungle floor. Stop and talk to Kerchak or Kala and even a few strange humans. Then, complete goals for them to unlock new levels of adventure.

The edges of the tree house decks form quarterpipes, and wood beams and raised planks create jump ramps. You can even grind on the wooden rails and the ropy vines entwined around trees.

Human Camp

Trekking into the African jungle on a scientific exploration requires all sorts of equipment and tools, and Professor Porter and Clayton have set them all up in their camp. Jane soon discovers that this makes a great place to try some tricks. If you can make it through all the obstacles and twisted vines on the jungle pass, you'll be rewarded with a breathtaking view of the falls. Then, help an elephant get a meal or have some fun smashing the human objects that are lying around. Just be careful not to wake up Clayton.

Very unwisely, Clayton and his henchman chopped down a stand of ancient trees to clear land for the Human Camp. They've left logs and stacks of wood laying around that you can grind along, and tree stumps provide ramps and quarterpipes. Back in the camp, you can grind along tent ropes, invert on the bent roots and use the sides of tents as quarterpipes. Then, at the edge of the camp, grind along jungle roots and try to come down the huge zigzag tree without bailing.

Clayton's Ship

Clayton's great ship has set sail, and there's a captured family of gorillas on board. These bad guys need a taste of their own medicine, and you're just the jungle skater to do it. Knock Clayton's Henchmen into the sea and help save the gorilla family by freeing them from their cages.

Many parts of the ship are grindable: railings, spars, gangplank and even the anchor chain. The structure leading up to the second deck and the bilge bowls below decks make great half-pipes. Grind high above the ship from the crow's nest to the smoke stack, just be careful not to fall in, or you might end up in the engine room.

Disney's The Lion King

Pride Rock

Bust tricks all over Pride Rock and the surrounding savannah. You'll see lions—some nice, some not so nice. The hot African sun shines down on this flatland skater's paradise. Skate to the top of Pride Rock and unplug the ancient spring that Scar has clogged up or chase Scar away and catch a glimpse of the savannah below you while you're at it.

The contours of Pride Rock provide edges to grind, half and full pipes, gaps—the works. The grasslands provide the bowls, pools and mounds.

Elephant Graveyard

This is an eerie place full of ancient bones that has hyenas on the loose. The rocky terrain and giant elephant bones create a fantastic place to skate. Free Zazu from a cage of bones and entertain some wise old elephant spirits

while you're at it. You may have to scare away some hyenas by dunking them in some hot lava pits.

Elephant bones create grinds, halfpipes, tubes and slides. The contours of the craters and pools within the bone mound form lips, halfpipes and edges.

Scar's Canyon

This huge ravine and nearby sandy desert are rough and dangerous terrain with cliffs, arches and dunes making excellent opportunities for big air, lip tricks and grinds. Simba and his friends must face some of their toughest

skating challenges in order to chase off Scar's hyena guards and then defeat him once and for all in a race for control of

the Pride Lands. Help Zazu by herding his wildebeest friends back to the watering hole or complete the grinds of Strength, Courage and Skill to really show off your stuff.

The grasslands form bowls, lips and halfpipes. The ravines form all sizes of halfpipes, full pipes, bowls, grinds, gaps—the works! The dunes form huge halfpipes and bowls.

Olliewood

This is a giant real world level with a movie theater, grocery store, skatepark and everything else you need to grind fast and get some big air. Skate around and maybe you can find magic portals that transport you into the Disney worlds. Olliewood has goals and collectables that rack up big points.

Personal Collectible – Zebra Haunch

Rafiki

Rafiki is a mandrill baboon who serves as the tribal shaman of Pride Rock. He is the wise protector of Young Simba and can command mystic forces. More enlightened than the other skaters, Rafiki finds time to embrace his spiritual side while riding a board.

Board – Mystic Boneboard

Personal Collectible – Spirit Guides

Young Terk

Tarzan's energetic gorilla buddy is a sarcastic tomboy and true friend who's always willing to stick up for Tarzan. Balance is by far her greatest attribute, and she uses it to perform some circus-like special moves.

Board – Frying pan stolen from Human Camp

Personal Collectible – Bananas

Young Tantor

Even though he doesn't like high speeds, Young Tantor has decided to join his friends on this skating adventure. Because he's so heavy, Tantor can get moving pretty fast, but the bigger they are, the harder they fall and he's got an unusually high center of gravity.

Board – Sturdy Bamboo Raft

Personal Collectible – Giant Jungle Peanut

Pumbaa & Timon

This comedic warthog and meerkat duo skate as one. Their special moves are more about having fun and making themselves at home than impressing anybody.

Board – Sheet of Bark
Personal Collectible – Tasty grubs!

Young Nala

Every bit as rambunctious as Simba, she's ready to go wherever he goes and do whatever he does. Her special moves show both her playful and serious sides.

Board – Turtle Buddy
Personal Collectible – Giraffe Haunch

Create-A-Skaters

To create your own skater select Create-A-Skaters from the skate stage. You can outfit your skater, choosing a unique look, clothing style and skate equipment. Create up to six skaters.

Edit Skater Menu

The Edit Skater menu is where you select the stats you want to personalize.

Name – Name your skater. Use the +Control Pad to select the letters and click **Done** when you're finished.

Head Options – Decide on the face of your skater as well as hair, glasses, face paint, hats and helmets.

Torso Options – Select the clothes for your skater and upper body protection equipment.

Leg Options – Select pants, shoes and socks for your skater.

Scale Options – Highlight body parts and proportion them as you wish.

Board Options – Pick the board you want and choose the styling.

Create New – Create a brand new skater from scratch (any changes you've made will be erased if you haven't saved them).

Note: Activision Customer Support cannot troubleshoot user-made skaters.

LIMITED USE LICENSE. Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. LIMITED WARRANTY. Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION AND/OR EXCLUSION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

INJUNCTION. Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDEMNITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be governed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, (310) 255-2000, Attn: Business and Legal Affairs, legal@activision.com.
